Bijan,

I understand that Kristen mentioned this to you already – we will need to put some of our disbursement money back into the FIG INC entity in order to pay remaining legal and other bills expended to complete the winding down of the business and also for the FARA filing.

Tom Lisi has reviewed the books, and suggested that we each put \$30,000 back into the entity to cover these items. We may (hopefully) get some of this back ultimately, but this is the amount he feels appropriate at this time to cover currently anticipated items.

I am sorry to have to ask you this but it is necessary.

I will be asking Tom to move my funds over in the next few days, please work with Michael (CC'd) or Tom for

appropriate deposit of your funds.

Sorry to have to ask but it is what the business requires to completely close all of our outstanding actions.

And as soon as we get this behind us, and now that we are starting a new chapter, we'd like to get together.

Thank you and let me know if any questions.

Mike
